

Astrolink — Corporate Profile

A Singapore-headquartered industrial trading group: three sister companies under common ownership across Singapore, Hong Kong and Shenzhen.

THE GROUP AT A GLANCE

Astrolink is an industrial trading group established in 2025. Its flagship business segment is **drone & robotics components** — six product lines sourced factory-direct in Shenzhen, inspected before shipment, and exported under the group's own licences. New verticals are added only through completed, documented transactions. The group buys and sells as principal under its own contracts and does not provide payment, collection or settlement services to third parties.

LEGAL ENTITIES

01 · SINGAPORE — GROUP HEADQUARTERS

ASTROLINK GLOBAL PRIVATE LIMITED

UEN	202557110Z (ACRA, bizfile.gov.sg)

ROLE	Factory-floor sourcing · QC & inspection · export customs clearance

STRUCTURE

The three companies are sister entities under common ownership. There is no holding company, and none is a subsidiary of another. In the standard flow the customer contracts with the Singapore company; where the Shenzhen entity is exporter of record, it contracts and invoices the buyer directly under its own licence. Related-party purchases between group companies are documented on back-to-back contracts at stated terms.

HOW WE TRADE

1 · Sourcing Factory qualification and factory-floor procurement in Shenzhen's industrial base	2 · Quality Documented QC and pre-shipment inspection on every order	3 · Export & logistics Export declaration under the group's own licence; air, sea and heavy freight	4 · Documentation Structured, verifiable document numbering; invoices and packing lists reconcile	5 · Engineering Component-level engineering liaison and OEM sourcing support
--	--	---	---	--

Typical terms: deposit on order confirmation, balance against shipping documents, stated on the face of each quotation and proforma invoice. The entity of record, its registration number and its banking coordinates appear on every document.

BUSINESS SEGMENTS

SEGMENT	STATUS	SCOPE
Drone & robotics components	Flagship	Propulsion motors (HS 8501.32) · ESCs & power · propellers (HS 8807.10) · flight controllers & avionics · frames & hardware · sensors & payloads. Serving OEMs, integrators and distributors across Europe and Southeast Asia.

AFFILIATED BRAND

Lthunder is the group's affiliated AI-drone brand under common ownership (lthunder.com), engineering its own flight controllers and ESCs.

COMPLIANCE & PAYMENT DISCIPLINE

- HS classification before goods move; export-control screening on dual-use items, including China's export-control rules on UAV items and Hong Kong / Singapore re-export requirements; civilian end-use policy for UAV components.
- Settlement exclusively through bank accounts held in the group's registered legal names — never a personal account, never a third-party company.
- Banking details communicated only from @astrolink-global.com and stated inside signed, numbered documents; counterparties are invited to confirm details through a second channel before first payment.
- Records retained so any shipment can be reconstructed: contract, invoice, packing list, customs declaration and transport documents under one structured number.

All facts in this profile are as stated on the public registers and on astrolink-global.com as of July 2026. Registry extracts for any entity are available on request: info@astrolink-global.com.
